

# Observation – Bruvik

Observation is the core of permaculture.  
The sit spot is the heart of observation. It is  
the magic pill if there ever was one.

# Vest for BG6

A photograph of a forest with a blue rope hanging from a tree trunk. The rope is tied to a tree in the center and hangs down to the ground. The forest floor is covered in grass and moss. The trees are tall and thin, with green foliage. The text "Vest for BG6" is overlaid on the image in white.
